

Here is a list of insurances that we are contracted with as of 8/1/2010:

MEDICARE BCBS  
AZ FOUNDATION AETNA  
CIGNA UHC  
TRICARE MULTIPLAN / PHCS  
IPA HUMANA  
CAP LONG TERM CARE  
MERCY CARE / MERCY HEALTHCARE GROUP  
UNITED HEALTHCARE  
Any Medicare Advantage Plan that is a PFFS.

If an insurance plan is an HMO and not listed above, we need an authorization before a patient can be seen.

We will see Bridgeway and Phx Health Plan patients for vein problems, but they must have an authorization from a primary care provider. If a patient is an established patient, or AHCCCS is secondary to Medicare, they may be seen in our office.

Please note that Dr. Schilperoort works almost exclusively at Tri City Surgery Center for outpatient surgeries, although most vein procedures are performed in our office. Since Tri-City Surgery Center is not contracted with some of these plans, we check benefits before scheduling a patient to make sure an operation can be performed without penalizing the patient for out-of-network costs.

Medicare, TriCare, Blue Cross, United Healthcare and the AHCCCS plans are not a problem at Tri-City Surgery Center, as they do have contracts.
